Claim of Ownership

STEVE HALL
REGISTER OF DEEDS
KNOX COUNTY

This document is to certify that I, Charles Wesley Faires, have claimed ownership of the stars ~~Alnilam~~, ~~Ainilak~~, and ~~Mintaka~~, the three stars that make up Orion's Belt, along with any planetary systems within the gravitational system of these stars.

Basis for Ownership

The Moon Treaty of 1967 signed by the U.S. and Russian governments, along with some member nations of the U.N. states that the governments of the parties involved in the treaty may not claim ownership of celestial bodies.

"Outer space, including the moon and other celestial bodies, is not subject to national appropriation by claim of sovereignty, by means of use or occupation, or by any other means."
(Article 2)

This mentions nothing about individuals. The basis of my ownership, therefore, is that no country's government can deny my claim to ownership.

The United Nations is not a government and thus cannot pass laws on private citizens of its member nations.

Note: Charles Wesley Faires switches usage of the 1st and 3rd person throughout this document. Just ignore that, please.

Ownership Entails:

1. As previously mentioned, the stars ~~Alnilam~~, ~~Ainilak~~ and ~~Mintaka~~, within the defined "Orion Constellation" in the Milky Way Galaxy. This means the entire solid mass of the star, and any light emanating from them, decussed under heading 4.
2. To avoid any discrepancy, in the event that there are constellations and stars that have been given the same name, the proper accepted astronomical denotation for these stars is as follows:

{Begin boring part}

* All stars are approximately 20 times the mass of the sun.

TXu 1 - 219 - 298

	Alnilak	Alnilam	Mintaka
Distance (light years)	800	1340	915
Scientific Name	Zeta Orionis	Epsilon Orionis	Delta Orionis

Instr: 288406290325838 Page: 1 of 5
REC'D FOR REC 09/29/2004 4:13:26PM
RECORD FEE: \$27.00
N. TAX: \$0.00 T. TAX: \$0.00

SAO catalog number.....	132444	132346	132220
Henry Draper Catalog.....	37742	37128	36486
Harvard Revised (HR) number.....	HR 1948	HR 1903	HR 1852
Visual Brightness.....	2.05	1.77	2.23
Spectral Class.....	O9.7Ib	B0Ia	O9.5I1
Right Ascension.....	5h40.738m	5h36.216m	5h32.007m
Declination.....	-1° 56.567'	-1° 12.117'	0° 17.950'

Mintaka and Antek are both part of companion star systems. Meaning they are actually made up of more than one star. Meaning, yep, my claim of ownership covers more than just 3 stars. But let's not get all hung up on that. I'm gonna just refer to those stars, as the astronomers do, as one. So any mention of Mintaka and Antek means all associated companion stars too.

(End Bojng Part)

3. Any planetary systems of these stars. This includes all solid satellites of the stars **Alninem, Antek and Mintaka**. This also includes satellites of any planet deemed to be in pennant orbit around these planets. Should a binary planet system occur, in which a planet has a dual orbit around one of these stars and another star outside the ownership of **Charles Wesley Faies**, the planet shall be deemed under my ownership as long as it is perceived to be in the primary influence of the gravitational pull of **Alninem, Antek or Mintaka**.
4. Any light emanating from these stars. By this I am not claiming to own the light one might see on the night of **September 29, 2003**. Photons that one can see from earth now were cast out before this date and therefore before my owning them. However, since photons cast out after this date are now under control of me, **Mr. Faies**, it is therefore deduced that, since the furthest of these stars is about 1,350 light years away, and the term "light year" refers to how far light travels in a year, all light viewed from these stars on and after the date **September 29, 2003** is legally owned by **Mr. Faies**. People of Earth may view light from Orion's belt free of charge or any legal responsibility.

Ownership does NOT include:

1. The void space between stars or planets located in this 3 star system.
2. Any "free floating" planet commonly found in the Orion Constellation.
3. Any planet in a dual orbit system, as mentioned previously, to which a star other than one I own is perceived as having gravitational pull dominated by another star.
4. **The Orion Nebula**. I want absolutely nothing to do with that stupid cloud of dust. People get Orion's belt and the Orion Nebula confused. They're not the same thing. **The Orion Nebula is stupid**.
5. The souls of ancient Egyptians. Lemme explain. Ancient Egyptians believed that heaven was in the part of the sky where Orion's belt is located. Since someone actually got mad at me over this, so lemme re-state:
No souls.

Statement of Intentions

I do not plan to exploit citizens of this world or any other in the universe. I do not plan to ever charge for light or photons coming from aforementioned stars, but I might be willing to sell plots of land there. Or possibly will it to my kids. I don't know yet. Nevertheless, no provisions in any constitution of any nation's government on Earth thus far has made provisions for these three celestial bodies I have claimed, which means nobody can deny my claim. Should an entity on "other worlds" see a problem with this, I would like to meet them face to whatever they have, because that would be so awesome! Hell, since that probably won't happen, I might even start my own government around these 3 stars. If I choose to do so, my title will be The InterGalactic MixMazter. This is to be discussed in a later document should I decide to do so. And hell, I just might.

Provisions

Though no government currently control the property claimed here, a copy of this document has been sent to the following:

- 1 The United Nations
- 2 The President of the United States
- 3 The Russian government, with intent to forward to their president.
- 4 The International Astronomical Union
- 5 The Archimedes Space Claims Institute
- 6 The United States Copyright office

The Legal Grog

- 1. This document was notarized on 28th of sept by 2004
Nathan with title Notary Public
- 2. This document was registered online at the Archimedes Space Claims Institute on May 13, 2004. Registry number d30040513111325
- 3. This document has been filed with the U.S. Copyright Office. That's right, I have a copyright. So don't YOU try to claim ownership of Orion's Belt. It's mine. I have the certificate of copyright registration, but look it up in the Library of Congress if you don't believe me.
- 4. This document was filed at the Knox County properties and deeds office. Evidence of this can be seen on the front page, and at the barcode at the bottom of every other page.

STATE OF TENNESSEE
COUNTY OF KNOX

I, WILLIAM MIKE PADGETT, Clerk of the County, within and for the County of State aforesaid, the same being a copy of Record do hereby certify that

Nabil Mishu

whose name is subscribed to this certificate of the proof or acknowledgment of the annexed instrument and the person who, at the same of making such proof and acknowledgment, a Notary Public, in and for said County, residing therein, duly commissioned and sworn, and authorized by the laws of said State, to take the acknowledgment and proofs of deeds and conveyances, for lands, tenements or hereditaments in said State, as he recorded aforesaid. And further, that I am well acquainted with the handwriting of said Notary Public, and verily believe, that the signature to said certificate of proof or acknowledgment is genuine.

In Testimony Whereof, I have hereunto set my hand and affixed the seal of the said County, the 11th day of January 20 07

By William Mike Padgett Clerk
Bathyl Bailey Deputy Clerk

6. **This one is important.** I'll put it like this: Come will writing time, I'll pass this on to whoever I please. If I die before I have any descendants to pass this on to, my sister, **Janell Nicolle Faires** gets sole ownership of everything under my claim.

Janell Nicolle Faires
Janell Nicolle Faires

John A. Higgins
Notary Public, Fulton County, Georgia
My Commission Expires Aug 3, 2006.

6. **By the way:** In October of 2003, I was on the news for this WBIR (Ch. 10) in Knoxville, Tennessee did a piece on me for their show "Live at Five". G'head, ask 'em. This thing has now hit the airwaves. Guess what? Those who think one can't own what one can't touch/visit, do this one in your head:

ME—>>> Camera—>>> Tape—>>> Broadcast—>>> Airwaves—>>> Space

*Not doing the math on this one, but I think you're getting where I'm going here. The claim laid **Charles Wesley Faires**, in the form of electric rays, will reach **Orion's Belt** before the claim of anyone else. And before any robot. Just because I was the first person with enough "chutzpah(sp?)" to try.

7. This document was presented in Federal Court:

Date	Judge/Court	Verdict
------	-------------	---------

8. Other important people who have been presented with this:

9. The aforementioned Claim of Ownership for Anilam, Alnitak and Mintaka, its satellites and light emanating from the stars has been expressed through this documents creation on September 29, 2003 by Charles Wesley Faira Guidelines for future practices have been laid out in this document. It was revised and edited by Charles Wesley Faira on September 21, 2004. No other party took place in the document's creation, and Charles Wesley Faira is to be the sole legal owner of the three stars aforementioned to be a part of Orion's Belt. Booyeah!

United Nations Committee on the Peaceful Uses of Outer Space (COPUOS)
Legal Subcommittee – 47th Session
Vienna, 31 March–11 April 2008
775th meeting

Presented at the Working Group on the Status and Application of the Five United Nations Treaties,
From Charles Wesley Faires (Private Sector Representative) to the following delegates:
Austria, Belgium, Chile, Mexico, the Netherlands, Pakistan, The Philippines, and Chairman Vassilios Cassapoglou (Greece)

General Assembly

Distr.: Limited
7 April 2008

Original: English

**Committee on the Peaceful
Uses of Outer Space**
Legal Subcommittee
Forty-seventh session
Vienna, 31 March-11 April 2008

Draft report

Addendum

III. Status and application of the five United Nations treaties on outer space

1. The Legal Subcommittee recalled that the General Assembly, in its resolution 62/217, had endorsed the recommendation of the Committee on the Peaceful Uses of Outer Space that the Subcommittee should consider the agenda item on the status and application of the five United Nations treaties on outer space as a regular item and had noted that the Subcommittee at its forty-seventh session would reconvene its Working Group on the item and would review the need to extend the mandate of the Working Group beyond that session.

2. The Subcommittee noted with appreciation that the Secretariat had distributed a revised version of the *United Nations Treaties and Principles on Outer Space and Related General Assembly Resolutions* (ST/SPACE/11/Rev.2), including the text of Assembly resolution 1721 A (XVI) of 20 December 1961; paragraph 4 of Assembly resolution 55/122 of 8 December 2000, in which the Assembly had noted with satisfaction the agreement reached by the Subcommittee, at its thirty-ninth session, on the question of the character and utilization of the geostationary orbit and a paper entitled "Some aspects concerning the use of the geostationary orbit" (A/AC.105/738, annex III); and the text of Assembly resolution 62/101.

3. The Subcommittee noted with satisfaction that the Secretariat had distributed an updated document containing information, as at 1 January 2008, on States parties and additional signatories to the United Nations treaties and other international agreements relating to activities in outer space (ST/SPACE/11/Rev.2/Add.1).

delegations expressed the view that the lacunae resulting from the current legal framework could be addressed by the development of a universal, comprehensive convention on space law without disrupting the fundamental principles contained in the treaties currently in force.

10. Some delegations expressed the view that it was important to continue efforts towards universal acceptance of the international legal regime governing activities in outer space, taking into account the need to identify new areas that might require regulation and that could be addressed by developing complementary instruments.

11. The view was expressed that the development of a comprehensive convention on space law would be based on the principle of the sovereign equality of Member States set out in article 2, paragraph 1, of the Charter of the United Nations and reiterated in General Assembly resolution 1348 (XIII) of 13 December 1958, entitled "Question of the peaceful use of outer space".

12. Some delegations expressed satisfaction with the fact that issues related to the low rate of participation of States in the Moon Agreement had started to be considered, as there was a need for adequate and timely regulation of activities relating to the Moon in view of the extensive exploration of the Moon planned by several space-faring countries. Those delegations were open to a revision of the Moon Agreement, if necessary, and drew the attention of the Subcommittee to the precedent-setting value of the law of the sea and other international legal regimes dealing with areas beyond national jurisdictions.

13. At its 765th meeting, on 31 March, the Subcommittee reconvened its Working Group on the Status and Application of the Five United Nations Treaties on Outer Space under the chairmanship of Vassilios Cassapoglou (Greece). The Working Group held [...] meetings. At its [...] meeting, on [...] April, the Subcommittee endorsed the report of the Working Group, contained in annex I to the present report.

14. The Subcommittee endorsed the recommendation that the mandate of the Working Group be extended for one additional year. It was agreed that the Subcommittee, at its forty-eighth session, in 2009, would review the need to extend the mandate of the Working Group beyond that period.

15. The full text of the statements made by delegations during the discussion on agenda item 6 is contained in unedited verbatim transcripts (COPUOS/Legal/T.[...]).

IV. Information on the activities of international intergovernmental and non-governmental organizations relating to space law

16. The Legal Subcommittee recalled that the General Assembly, in its resolution 62/217, had endorsed the recommendation of the Committee on the Peaceful Uses of Outer Space that the Subcommittee should consider, as a regular item of its agenda, an item entitled "Information on the activities of international intergovernmental and non-governmental organizations relating to space law". The Subcommittee noted with satisfaction that various international organizations had
